

Dubai Maritime City Island Project - in Dubai

Man-Made Peninsula Project 2009 - in United Arab Emirates

ACO. The future of drainage.

ACO line drainage – heavy duty
ACO DRAIN® S 150 K

The 2.27 million square metre Dubai Maritime City is divided into the Maritime Centre, the Industrial Precinct, The Academic Quarter, the Marina District, the Harbour Residence, and the Harbour Offices. The Maritime Centre District is the centrepiece of Dubai Maritime City. Created as an urban corporate park, the District comprises eight waterfront and three interior parcels organized around a central boulevard.

The Maritime Centre comprises a cluster of five high-rise towers called the Creek Towers and Plaza, Landmark Tower located at the head of the man-made peninsula, and seven plots reserved for potential developers planning to construct their own towers. The Centre will also feature a 5-star business hotel and premium service apartments.
