

Makkah, Shamiya expansion

Mega project 2010/16 in Kingdom of Saudi Arabia

Makkah, 3. Expansion of Shamiya

ACO Stainless steel channels

Modular channels with perforated gratings

Shamiya mega project is part of a broader government project to develop the areas around Makkah. Covering an area of 1.5 million sq mtrs. The Shamiya mega project will take about 10 years to complete in phases. Public utilities such as schools, fire fighting stations, police stations, clinics, and other public facilities make up 7 per cent of the project zone.
